

The Last 15

CLASP provides homework help to students. Sometimes you finish the homework assignments before the hour is up. Read Together is finished. What can you do now?

FLASH CARDS

Every site has flash cards for addition, subtraction, multiplication, and division. Playing a game to reinforce basic math facts is always a good first choice. Site Supervisors will give you flash cards and suggested games to play.

SCHOLASTIC MAGAZINES

Every site has high-interest magazines, StoryWorks, DynaMath, and Science World for Grades 4-6 and Storyworks Jr, for Grades 1-3. If you take 2 copies, it makes it easier for both you and the student to read and discuss the fascinating articles.

PRACTICE SIGHT WORDS or GRADE LEVEL VOCABULARY WORDS

Every student has a packet of grade level sight words or vocabulary words they need to master for speed or definition.

In addition, these activities could be used during The Last 15.

1. _____
2. _____
3. _____
4. _____
5. _____
